

## Dave Ryan Bio

I am a claims adjuster for Farmers Mutual. I am a West Virginia native, and graduated from East Fairmont High School and Fairmont State College. I have been with FMIC for 18 years, and have been an adjuster for 26 years. I also do some of the marketing for FMIC and do underwriting inspections. I also designed many of our informational brochures.

My career in the insurance industry began as an agent for Combined Insurance, then I became an adjuster for Crawford and Company. I worked for them for a year and a half, then accepted a position with Erie as an adjuster. After five years with them, I moved to New Jersey and went to work for Hartford as a Commercial General Liability adjuster. I spent a year there, and then Farmers Mutual made me an offer I could not refuse, and I came home to become the very first staff field claims adjuster for Farmers Mutual.

I live on Bunner Ridge outside of Fairmont with my wife Wanda, our daughter Nicki and our Australian Shepherd, Chunk. Wanda works for WVU Hospital as a respiratory therapist. I enjoy taking care of claims for our policyholders, and also visiting with our agents. Outside of work, I enjoy sports, reading, spending time outdoors with my family, traveling West Virginia, pitching horseshoes and cheering on WVU in all sports.
